DETAILED ACTION

Election/Restriction

1. Claims 26-27 have been canceled after being drawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 17.

Terminal Disclaimer

2. The terminal disclaimer filed on May 8, 2002 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,079,140 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the motor pivoting between storage and operative positions must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Art Unit: 3643

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informalities: motive system 60 conflicts with motor 60 on page 11 of the specification.

Appropriate correction is required.

5. An examination of this application reveals that it includes terminology which is different from that which is generally accepted in the art to which this invention pertains. For example: parallelepiped structure refers to the frame that the decoys are attached to. However, a parallelepiped is a solid figure having six sides. The frame is clearly not a solid figure. However, all of the frames disclosed have four sides.

Applicant is required to provide a clarification of these matters or correlation with art-accepted terminology.

Claim Rejections - 35 U.S.C. § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3643

7. Claims 1-3, 5-8, 19-20, 24-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 20 depends from canceled claim 15. Claim 24 depends from canceled claim 21 and claim 25 depends from canceled claim 22. It appears that these claims do not correlate with the claims sent in the amendment filed Feb. 27, 2002. Please clarify and or correct. Claims 1, 5, 7, and 19 are somewhat confusing since it is not clear if what is functionally recited and what is positively claimed. These claims should be rewritten to mirror claim 1 of the parent application now US 6,079,140.

Allowable Subject Matter

8. Claims 20, 24-25 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. Claims 1-3, 5-8, 19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
